

# Save Stonehenge World Heritage Site

TO: THE SECRETARIES OF STATE FOR TRANSPORT, AND CULTURE, MEDIA & SPORT TO THE UK GOVERNMENT

*No further damage should be done to the archaeological landscape of Stonehenge. Future generations would be appalled at those who decided that road widening should be at the expense of England's most iconic World Heritage Site. If A303 widening at Stonehenge is felt to be essential it should be done by means of a deep bored tunnel at least 4.5km long. Anything shorter would cause irreparable damage to this landscape, in breach of the World Heritage Convention.*
