

# Stonehenge World Heritage Site **UNDER THREAT**

**The UK Government wants to dual the A303 across the iconic Stonehenge World Heritage Site. Only part of the new road would be in a tunnel, MUCH shorter than the width of the WHS.**

When the scheme was announced in 2014 the world was a different place. Far less was known about climate change and the irreversible damage the scheme would cause to the exceptional archaeological landscape.

The road has been:

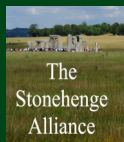

- REJECTED by UNESCO
  - REJECTED by 5 Planning Inspectors
- Consent was **QUASHED** by the High Court

**218,000 objectors in 147 countries**

**ACT NOW! Stop the road scheme**  
visit [www.stonehengealliance.org.uk](http://www.stonehengealliance.org.uk)

Grant Shapps is now going to redetermine the scheme, and he is likely to want to **approve** it yet again.

Stonehenge WHS is far from safe.

**ABOUT US** The Stonehenge Alliance is supported by Ancient Sacred Landscape Network (ASLaN), Campaign to Protect Rural England (CPRE), Friends of the Earth, RESCUE: The British Archaeological Trust, Transport Action Network and many individuals worldwide.
