

STONEHENGE ALLIANCE CAMPAIGN UPDATE

The Government's roads programme is failing the Stonehenge archaeological landscape.

Dear Supporter,

The Government's road building programme is failing and MPs are noticing

Last week the Transport Select Committee quizzed senior civil servants and the CEO of National Highway. Ahead of the Spring Budget they dropped a heavy hint that the Department for Transport will need to shrink its next tranche of schemes. Or, as the [Highways Magazine](#) put it, "there's little scope for new schemes in RIS3" ie the 2025-30 investment period.

We want to make sure that the **damaging and low value for money Stonehenge tunnel scheme** is kept well out of the Spring Budget and that the £2.5bn that it costs is saved to spend on other essential public services desperate for funds.

Can you send our prepared email to the Prime Minister/Chancellor and Transport Secretary now? [It's ready for you to copy / edit / email / send!](#)

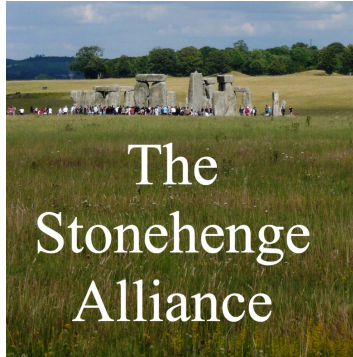

Many thanks for your support and action across so many platforms!

Best wishes

John Adams and the Alliance activists
